Dublin - OHIO

Education

Pursuing Masters in Engineering Management
Cumberland University
Lebanon - TN

B Tech in Engineering Technology
WILP BITS Pilani

Skills

- ❖ Product Design & Development
- ❖ GD & T, Stack-up Analysis
- ❖ Project Management
- ❖ Value Added Value Engineering
- ❖ Catia V5
- ❖ Root Cause Analysis Techniques
- ❖ Sheet Metal & Plastics Design

Personal Details

Passport Number : W5299082

Marital Status : Married

Date of Birth : 29 April 1983

Professional Summary

18 years of experience, specializing in the design and development of automotive components, I have honed my expertise as an innovative product development manager. My professional journey includes extensive leadership in managing the complete product lifecycle, with a demonstrated history of successfully introducing new products to market. Independently, I have managed and overseen all aspects of New Product Development, from conceptualization to production. Combining BIW & Chassis experience, I bring a unique blend of skill set that encompasses adept problem-solving and effective supplier management, along with a deep understanding of Design Verification Plans & Reports and the auditing of supplier processes.

Work Experience

CAD Engineer, Honda America (Toogann Technologies)

June-2026 to Till date

- Design of Brake Reservoir Mounting Brackets.
- Performing Form analysis in Catia 3DX.
- Performed Static and Frequency analysis in Catia V6.
- Routing of Brakes rigid pipe routing.
- Design of ABS module mounting Bracket.
- Desing and analysis of Caliper flexible tube mounting brackets.
- Detail drawings for Splash Guard.
- Detail drawings of fuel system Tubes.

Sr. Project Engineer, CIE Automotive

September-2021 to July-2025

- Design of Bottom Loaded Outer Sliding Sunroof Systems.
- Effectively oversaw multiple projects, ensuring they were completed within budget and met established timelines.
- Responsible for designing Roof frame assemblies for Mahindra & Tata projects.
- Review of Drawings & Managing documents such as plastic checklist & Packaging checklist.
- Design Optimization according to CAE report.

Assistant Manager, Renault Nissan Technical Business center of India

March-2019 to September-2021

- Designed and developed chassis assemblies such as Corner Module, Frames, and Axles for Kiger, Triber, and Magnite vehicles.
- Effectively communicated with vendors to ensure timely delivery and resolved any technical concerns related to product quality.
- Created compliance matrix, product specifications & validation plans.
- Released the drawings to manufacturing with design changes based on CAE results and Test Bench results.
- Resolved vehicle-level customer concerns by using techniques such as Fishbone analysis and the 5 Whys.
- Gained a good understanding of Renault tools like ANPQP and One Val.

Trainings

Apprentice in Ordnance Factory
Turret Punch Press – 1 Year

Awards

- ❖ Team Award - Milestone achievement for Magnite vehicle. (RNTBCI)
- ❖ Abhimanyu Award – Recognition for New Process establishment. (RNTBCI)
- ❖ Special Appreciation - Completed the supplier Audit in pandemic time. (RNTBCI)
- ❖ Quarterly Team Award- Recognition for Global projects support (CIE)
- ❖ Annual Individual Award- Recognition for Design of Plastic Parts (CIE)
- ❖ Appreciation Certificate- Contribution to MBRDI Project (CSC)

Hobbies

Cricket

Photography

Travelling

Cooking

Assistant Consultant, Tata Consultancy Services.

September-2017 to March-2019

- Responsible for Designing BIW Underbody for Citroen Hatch back vehicle (PSA Project).
- Managed team of 12 Engineers. Ensured Deliveries as per Project Milestones
- Discussed with Cross function teams to resolve Interface Issues.
- Prepared Design concept sheets and RFQ packages for Underbody assemblies.
- Conducted Benchmarking Sessions & Workshops for Cost reduction Ideas.
- Proposed Countermeasures for Durability Issues.
- Design Modification to meet Crash requirements.

Lead Engineer, Hinduja Tech Ltd

October-2011 to October-2016

- Responsible for Packaging & Architecture for Chassis assemblies.
- Conducted design checks for all chassis components by performing Cad simulation in Catia V5.
- Created and managed detailed engineering documentation like Critical clearance report, Stack up analysis, Hard points document and Interface documents.
- Performed 2D & 3D release activities in Team center & Enovia.
- Worked on A- Platform for Kwid & Redigo Vehicles.
- Preparing envelopes for suspension parts, steering & Wheels.
- Checking supplier data and prepared modification request sheets.

CAD Engineer, CAD MAXX Solutions

May-2010 to April-2011

- Used Catia to generate detail drawings of mechanical components & Assemblies.
- Performed CAD design tasks to meet customer specifications.
- Migration Project from Catia v4 to v5, making Parametric Models.

CAD Engineer, C MAXX

March-2005 to September-2009

- Worked on 2D to 3D conversion in Fuso Truck project.
- Involved in concept generation to the Proto building of BIW Cabin Design.
- Assisted in designing of Test Fixtures.
- Created drawings for sheet metal & casting parts.
- Created Engineering change request forms.

Other Responsibilities

- Conducting Interviews & tool test.
- Allocation of Work to team members.
- Updating Managerial Information system.
- Conducting Knowledge sharing sessions.
- Training Best practices to new employees.
- Attending Supplier & Vendor meetings to discuss on future projects.
